Portfolio

Professional Summary

Backend Python Developer and Computer Science undergraduate with practical experience developing scalable web applications, REST APIs, and machine learning solutions using Python, Django, PostgreSQL, Scikit-learn, and PyTorch. Passionate about backend architecture, artificial intelligence, and data engineering. Strong problem-solving skills with hands-on experience in software development, database design, and deploying full-stack applications.

Technical Skills

Languages	Python, C++, C, JavaScript, SQL
Backend	Django, REST API, Authentication, ORM
Machine Learning	NumPy, Pandas, Scikit-learn, PyTorch, Matplotlib
Databases	PostgreSQL, MongoDB, MySQL
Tools	Git, GitHub, Linux, VS Code, Jupyter Notebook
Web	HTML5, CSS3, Bootstrap

Projects

E-Commerce Platform using Django **Python, Django, PostgreSQL**

- Built a full-stack e-commerce application with user authentication, shopping cart, product management, and responsive UI.
- Designed relational database schema using PostgreSQL.
- Developed reusable backend modules following Django best practices.
- Integrated secure authentication and session management.

AI/ML Classification Project **Python, Pandas, Scikit-learn**

- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis.
- Built and evaluated machine learning classification models.
- Visualized insights using Matplotlib.
- Improved prediction accuracy through feature selection and preprocessing.

Hospital Appointment Management System **C++**

- Developed desktop application supporting Admin, Doctor, and Patient modules.
- Implemented appointment scheduling and patient record management.
- Used binary file storage for persistent data management.

Experience

AI & Machine Learning Intern

VORTEXTECH

- Worked on supervised machine learning projects using Python.
- Performed data preprocessing and feature engineering.
- Developed classification models and evaluated model performance.
- Collaborated using Git and Jupyter Notebook.

Education

Bachelor in Computer Engineering

Purbanchal University

Expected Graduation: 2027

Achievements

- Developed multiple academic and personal software projects.
- Maintained an active GitHub portfolio showcasing backend and AI/ML work.
- Built and deployed a personal portfolio website.

Relevant Coursework

Data Structures • Algorithms • Database Management Systems • Artificial Intelligence • Machine Learning • Distributed Systems • Big Data Analytics • Computer Networks

Languages

• English • Nepali
